Projects

Revitalize | Front-End Developer
Crowdfunding application connecting tradesmen with older buildings needing repair
https://github.com/Revitalized-Playground
- Created home and about pages using React, Sass, and accounting for responsiveness design
- Built user dashboard functionality in React while considering user requirements
- Utilized React, Styled Components, GraphQL queries

MovieBase | Full-Stack Developer
Database of popular movies, television shows, and reviews
https://github.com/JoseMarioDev/movieapp
- Built front-end views using ReactJS, Redux, CircleCI, and Sass with fully responsive design
- Leveraged The Movie DB's API to deliver movie and television data to the front-end
- Utilized AWS Services: S3, CloudFront, API Gateway, Lambda, Python, DynamoDB

Experience

Lambda School Academy of Computer Science and Web Development
Team Lead — Remote · 2020 to Current
- Mentor 8 students on how to learn effectively and solve programming problems
- Reinforce technical concepts by facilitating small group study sessions and 1:1 daily check-ins
- Provide daily live code reviews and lead feedback sessions on code improvements, readability, and best practices
- Led daily standup meetings to build camaraderie, facilitate the sharing of ideas and work progress, and provide guidance for that week's study material

Dan Marquez State Farm
Office Representative — Hillside, IL · Dec. 2017 to Jan. 2020
- Collaborated with office staff to provide superior customer service to a client database of 800 policyholders
- Communicated with various departments in State Farm to resolve claims and billing questions within 24 hour or less
- Advised customers on insurance needs for all lines of insurance including auto, fire, life, and health
- Provided business and technical support for email, spreadsheets, and word processing to office co-workers

Majestic Star Casino
Supervisor — Gary, IN · July 2014 to Nov. 2017
- Managed daily operation of 21 table poker room including satisfying guests needs to maximize repeat business
- Handled the scheduling of 20 employees ensuring appropriate staffing levels
- Provided upper management detailed reports on business using MS Office and Casino Management Software
- Instructed a training class of 10 new employees on policy and procedures and ensured they were competent on industry standards and customer service expectations
